Profile

Front-End Developer specialized in creating modern, smooth, and user-friendly interfaces. I have strong experience in HTML, CSS, and JavaScript, along with solid skills in PHP, Java, and Python. I work professionally with Angular and have completed several real-world projects, including fully responsive websites with attractive designs and high performance.

Education

10/2023 – Present **Computer Science, Software Industry and Multimedia Department** Alexandria
Alexandria, Egypt

Professional Experience

Front-End Development Intern

Training Program [NTI]

- Completed an intensive training in Front-End Development covering HTML, CSS, JavaScript, responsive design, and UI/UX fundamentals.
- Gained hands-on experience by building real-world projects during the program.
- Developed multiple front-end applications applying best practices in code quality and performance.

Skills

Technical Skills

- Front-End Development: HTML, CSS, JavaScript
- Object-Oriented Programming (OOP)
- Data Structures: Linked List, Stack, Queue

Soft Skills

Problem Solving, Effective Communication, Time Management, Adaptability, Attention to Detail, Continuous Learning

Tools & Technologies

Git · GitHub · VS Code · XAMPP · NetBeans · Figma

Other Skills

Data Analysis & Visualization · UI/UX Design · Database Design · Debugging · Team Collaboration · Data Science

Projects

JR Store – Online Clothing Shop

Front-End Developer | 06/2025 – 07/2025

- Developed the front-end of a full-stack e-commerce website using **HTML, CSS, and JavaScript**.
- Focused on creating a **responsive**, user-friendly interface with seamless navigation and secure checkout flow.
- Collaborated with back-end developers to integrate product management and cart functionalities.
- Conducted usability testing with **50+ users** to refine the UI and improve overall user experience.

Softline – Software Services Website

Front-End Developer | 04/2025 – 05/2025

- Designed and built the front-end for a corporate website showcasing IT services and ready-made templates.
- Implemented a clean, modern layout using **HTML, CSS, and JavaScript**, optimized for different devices.

- Integrated interactive sections like a **contact form**, service cards, and template previews.
- Improved engagement based on feedback from **30+ users** and adjusted layout for better clarity and accessibility.

Dopetrope – Personal Portfolio Website

Front-End Developer | 02/2025 – 03/2025

- Designed and developed a **responsive portfolio website** using **HTML, CSS, and JavaScript** to professionally showcase personal projects and skills.
- Included interactive elements like a **project gallery**, blog section, and an “About Me” area.
- Enhanced the user experience through **usability testing with 50+ users**, ensuring smooth performance across devices.

Multiverse – Image Gallery Website

Front-End Developer | 12/2024 – 01/2025

- Created a visually rich image gallery for **nature and landscape photography** using **HTML, CSS, and JavaScript**.
- Focused on **clean layout and performance optimization** for high-quality images with captions.
- Conducted testing with **90+ users** to ensure fluid interaction, fast loading, and responsive design.

Certificates	
<p>Python Basics Maharatech Apr 2025</p> <p>Covered Python syntax, variables, data types, control structures, and basic functions</p>	<p>AI Design Tools Al Amoudi United Company Nov 2024</p> <p>Completed a training on using AI tools in design, including visual creation and image enhancement with generative AI</p>
<p>Building Web Applications using PHP & MySQL Maharatech Apr 2025</p> <p>Built dynamic web apps using PHP and MySQL with basic database integration</p>	<p>Clean Code Principles Maharatech Apr 2025</p> <p>Learned the core principles of writing clean, readable, and maintainable code</p>
